LIFE RAFT / RESCUE BOAT RELEASE HOOK PX01

About the product

The T-ISS Life Raft / Rescue Boat Hook PX01 is a combined automatic release hook which can handle rescueboats and life rafts up to a safe working load of 35 kN. This hook can be used for rescue boats with a davit load less than 3500 kg and/or a davit launched liferaft up to 40 pax.

The PX01 release hook has 2 modes of operation to allow for safe evacuation regardless of the conditions:

1. Automatic release when the craft enters the water
2. Manual release when waterborne if auto-release is not possible due to added load on the while being towed or when sea conditions are bad.
