Lifeboat Repair Kit

T-ISS

Product description

The T-ISS Lifeboat Repair Kit is a high-quality, solvent-free epoxy repair system designed for robust and reliable repairs on various materials. When paired with Glasmat, Chop Strand Mat, or Glass Cloth, this kit is perfect for restoring cracked, damaged, or hollow GRP (Glass Reinforced Plastic) surfaces.

Whether you're dealing with structural damage or surface imperfections, the Lifeboat Repair Kit offers a durable and effective solution, ensuring your repairs stand the test of time.
