The T-ISS Emergency Leak & Seal Kit (ELS Kit) is a comprehensive response kit designed for immediate action when leaks occur. It requires only a wrench and water for use. No special training is necessary, but crew members should familiarize themselves with the kit to ensure damaged components are properly sealed.

Versatile and reliable, the ELS Kit is suitable for both hazardous and non-hazardous chemical applications. It includes a wide range of tools and materials, allowing for quick and effective repairs of common leaks in pipes, tanks, and drums.

Dimensions

Container Size:

Width: 475 mm
Length: 215 mm
Height: 265 mm

ISSA: 75.582.00
IMPA: 81.23.68

HS code: 40169990

Contents

- | | |
|---------------------------------|----------|
| • Rubber hammer | 82052000 |
| • Wood wedges (16 pieces) | 44219098 |
| • Knife | 82119300 |
