Emergency Leak&Seal Repair Kit

T-ISS

Product description

T-ISS Emergency Leak&Seal Kit(ELS kit) is an inclusive response kit that enables to take action when call for it. A wrench and water are all that is needed to use the ELS kit.

No special training is required, but assure the crew should be familiar with the kit, so that the damaged parts would be properly repaired.

The ELS kit is versatile; use it for hazardous and non-hazardous chemical service.

The ELS kit includes a broad range of items capable of quick repair of the most common leaks in pipes, tanks and drums.

The kit complies with marine/impa standard 812368.
