

The background of the entire page is a close-up photograph of several overlapping yellow safety mats. These mats have a coarse, granular texture designed for slip resistance. In the top-left corner, there is a graphic element consisting of three parallel diagonal stripes in red, white, and blue. A dark blue rectangular box is positioned in the upper right area, containing white text.

BACKGROUND

Introduction

Increase safety! Statistics show that the most common accidents, leading to personal injuries on decks, are caused due to slippery surfaces on decks and stairs.

T-ISS now offers solution, which is as simple as effective and economical, it can easily be installed by your crew on decks, stairs, steps and any surface which can become slippery.

- Avoid serious injuries
- Reduce healthcare cost
- Avoid unnecessary claims
- Reduce your liability

T-ISS Slip Stop Strips are made of strong fibre glass with an aluminium oxide grain structure in bright, high attention, yellow or black. All strips and stair noses are supplied in a convenient length of 80 cm/32", other lengths available on request.

All our Slip Stop products can be mounted with either stainless steel screws or our specially developed adhesive, resistant to the tough marine environment and suitable for all type of surfaces.

Features and Properties

- Good fire resistance (ASTM E-84 Class 1).
- Good electrical insulation and non-magnetic (such as steel grids).
- Resistant to algae, moss growth, water, rot and UV radiation.
- Resistant to corrosion and chemical degradation.
- Light in weight and high strength and loadability (1/4 weight of steel grids and 1/3 weight of aluminum grids).
- Excellent anti-aging properties, self-cleaning, color and strength are maintained.
- SlipStop products are recyclable.
- Quick installation and immediate use, virtually no maintenance.

PRODUCT RANGE

SlipStop Diamond Strips

These anti-slip FRP strips are ready-to-use and suitable for all surfaces. They are durable and made of pultruded glass fiber reinforced polyester with an anti-slip layer of different grain structures. The standard length measurement is 800 mm. We can also customize the dimensions of the anti-slip strips.

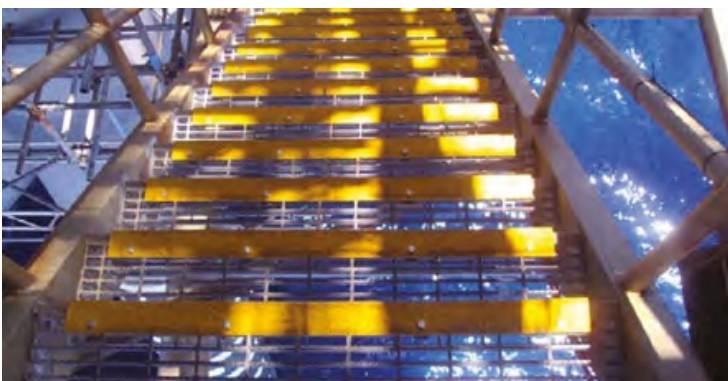

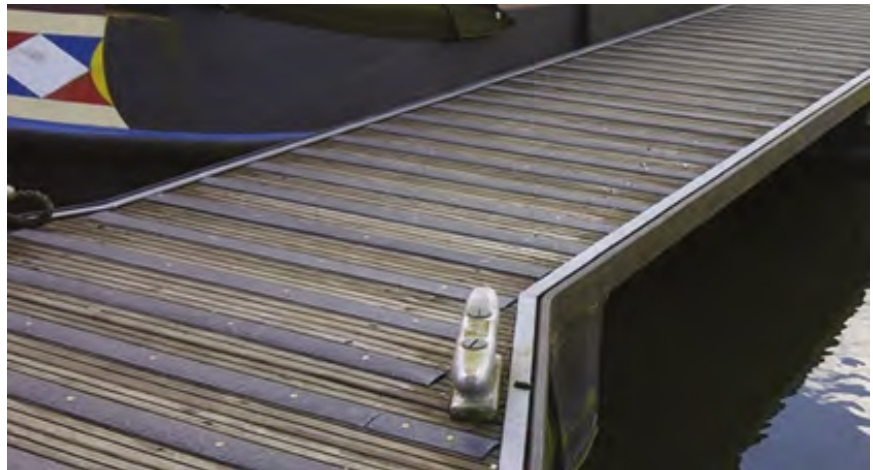

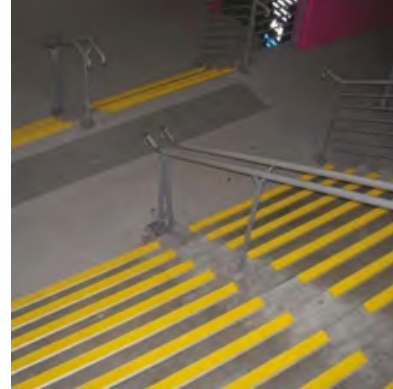

- Very durable anti-slip surface
- Easy to install with screws (pre-drilled) or kit
- Resistant to algae, moss growth, water and rotting
- Choice of different widths and lengths
- Highly bright yellow strips

Product description	Color	Gradation	Length / Width	Thickness	Price
SlipStop Diamond Strip	Bright Yellow	Coarse	800 mm x 90 mm	4 mm	€ 30,00
SlipStop Diamond Strip Pre-Drilled	Bright Yellow	Coarse	800 mm x 90 mm	4 mm	€ 31,00
SlipStop Diamond Strip	Bright Yellow	Coarse	800 mm x 50 mm	4 mm	€ 17,00
SlipStop Diamond Strip Pre-Drilled	Bright Yellow	Coarse	800 mm x 50 mm	4 mm	€ 18,00
SlipStop Mounting Kit - 290 ml	Grey, brown, white or black	-	-	-	€ 10,00

Applications

PRODUCT RANGE

SlipStop Diamond Stairnoses

These anti-slip FRP products are suitable for all surfaces.

They are durable and made of pultruded glass fiber reinforced polyester with an anti-slip layer with a grain structure, available in various grades. Our Slip-Stop nosing and stair tread covers can be used on all types of stairs, such as steel, wood and stone stairs. The installation is quick and simple, with screws and / or high quality kit. It is also a very safe solution for emergency stairs.

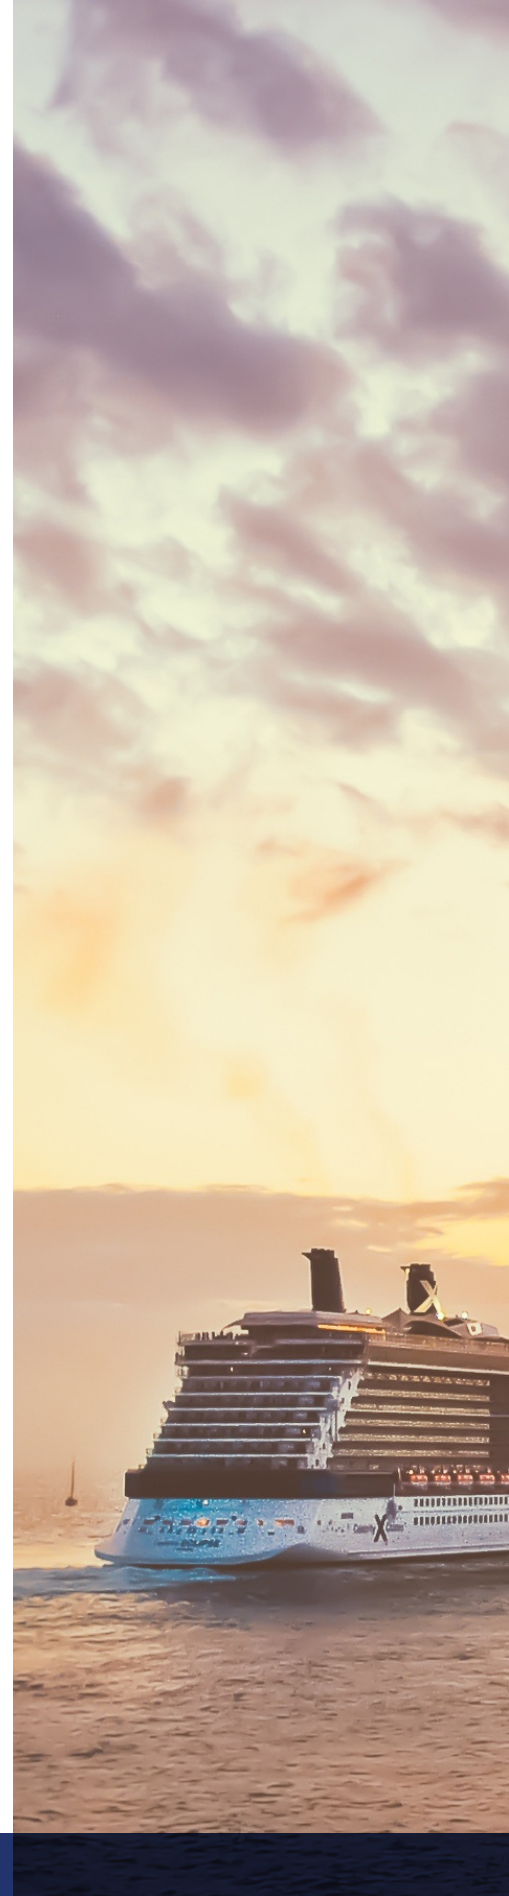

Stair tread covers can be manufactured using high quality fire resistant resins, which meet Class 1/0 fire rating. We can also incorporate phenolic resins to achieve the ultimate level of fire resistance. These products produce virtually no toxic smoke and fumes in the event of a fire. Therefore they are suitable for use on offshore and underground applications.
