

Datasheet

CorStop Zinc-Tape

T-ISS

Revision 2020

Product description

T-ISS Corstop tape has been used to cover the surface of metals protecting them against corrosion.

Active anti-corrosive protection tanks towards the electrical contact between the protected surface and the corstop layer react as a scarifying anode.

Dimensions

Our CorStop Tape, is available in rolls in the following sizes:

Width	Length	Weight	ISSA	IMPA
25 mm	20 mtr	1,8 kg		673521
50 mm	20 mtr	1,9 kg		673522
100 mm	20 mtr	2,1 kg		673523
other possible sizes on request				

HS Code: 79050000

Certificates & Standards

- Green Passport

Applications & Use

Use:

In cases where Galvanode ZincTape is to be applied to protect dissimilar metals, the zinc tape must be put on more noble metal.

Should there be doubts regarding the electrolytic potentials of the materials, it is advisable to cover both surfaces with zinc tape, to minimize the possibility of corrosion attack.

Specifications

- Characteristics:
 - Radioactive free, Harmless.
- Temperature resistance:
 - Up to + 80 degree.
- Benefits:
 - 1st, UV resistance.
 - 2nd, Robust endurance towards water, gas etc.
 - 3rd, Corrosion would not start from inside.
