Helicopter Crash Kit

T-ISS

Product description

The Helicopter Crash Equipment Kit is a special kit designed to provide essential tools and safety equipment necessary for emergency response and rescue operations following a helicopter crash or emergency landing. Our kit meets all necessary safety standards and regulatory requirements, ensuring readiness for critical situations.

The Helicopter Crash Equipment Kit complies with specific aviation regulations, industry standards, and guidelines such as those outlined by CAP 437 (Civil Aviation Publication) and ICAO (International Civil Aviation Organization) for offshore helicopter landing areas.
