RustStop Tape

T-ISS

Product description

T-ISS Ruststop tape is a corrosion protection tape applying to all types of steel stuffs including pipes against corrosion caused by water, acids, alkali and salt as a long term guarantee.

Ruststop tape creates a robust barrier against water. The quality would be still valid underwater, underground and towards harsh weather conditions.

Dimensions

Our Ruststop Tape, is available in rolls in the following sizes:

Width	Length	Thickness	Weight
50 mm	10 mtr	1,2 mm	0,7 kg
100 mm	10 mtr	1,2 mm	1,4 kg

other possible sizes on request

ISSA	IMPA
7555001	812471(50 mm x 10 mtr)
7555002	812472(100 mm x 10 mtr)

HS Code: 2715.00-3000

Certificates & Standards

- Green Passport

Applications & Use

Surface Preparation:

Make the surface as clean as possible and remove loosen rust. Ruststop will get the best results when applying on dry surface. However, it can be applied to a wet surface.

- Hydraulic pipeline valve/flange
- Underground pipe/tank
- Steel pilling/marine structure

Specifications

Benefits

- Good resistance to acids, alkalis and salts
- Easy application and short working time
- No charges under low temperature, -270 °C.
- No cracking, no hardening as well
- Solvent free
- Cold and Wet surface application available
- Create a solid water barrier
