Security Seal Tape

T-ISS

Product description

Security Seal tape, also known as tamper-evident tape or warranty void labels, is a type of adhesive tape designed to provide evidence of tampering or unauthorized access to a sealed item, package, or container.

This type of tape is commonly used in various industries to enhance the security and integrity of shipped goods. It shows the "OPEN VOID" hidden security message as soon as the warranty tape is removed from the surface of a carton box of other applications. These SecuSeal Tapes seal off and provide extra protection.

Pictures

Dimensions & technical data

Size: 35 mm x 10m
Thickness: 25 Micron

Adhesion: Pressure sensitive
Minimum Shelf life: 2 years
Color: upon request

Material: PET, Halogen free, NON-PVC

Custom-made labels possible upon request (various colors, layouts, and sizes). Production of individual labels or on a roll.

Certificates & Standards

Applications & Use

Our Security Seal Tapes reveal the hidden security message when tampering has occurred. Even if someone tries to replace it, the void tape will show that an individual attempted to break into it.

HS code 39199080
