Datasheet
Liferaft Release Hook PX01R

T-ISS™ safety suppliers
a Heijboer Safety Group company

Product description

The T-ISS Liferaft Release hook PX01R is an automatic release hook that can handle liferafts up to a safe working load of 35kN. This hook can be used for Liferafts. The PX01R release hook has an automatic release and a manual release.

Important note:
As of January 2026, the PX01R can be used as a release hook for liferafts and rescue boats in most applications, although it is not accepted by certain classification societies and flag states.
