Rust Stop Tape

T-ISS™
safety suppliers

a Heijboer Safety Group company

Product description

T-ISS Rust Stop Tape protects steel surfaces, including pipes, against corrosion caused by water, acids, alkalis, and salts.

The solvent-free tape is easy to apply to cold and wet surfaces and creates a durable water barrier. It remains flexible without cracking or hardening and is suitable for use underwater, underground, and in harsh weather conditions.

Rust Stop Tape provides long-term corrosion protection and comes with a long-term guarantee.

Technical Specifications

Width	Length	Thickness	Weight
50 mm	10 m	1.2 mm	0.7 kg
100 mm	10 m	1.2 mm	1.4 kg

Other sizes are available upon request.

Certificates and Standards

Green paspoort

Product Information

Art. no.:	RSPT050 RSPT100
ISSA:	7555001, 7555002
IMPA:	812471 (50 mm × 10 m) 812472 (100 mm × 10 m)
HS Code:	27150000

Features and Contents

Surface Preparation:

Clean the surface as thoroughly as possible and remove any loose rust. Ruststop Tape provides the best results when applied to a dry surface. However, it can also be applied to a wet surface.

Applications:

- Hydraulic pipeline valves/flanges
- Underground pipes/tanks
- Steel piling/marine structures
