Self-Contained Breathing Apparatus (SCBA)

T-ISS™
safety suppliers

a Heijboer Safety Group company

Product description

The T-ISS Self-Contained Breathing Apparatus (SCBA) features a six-liter steel cylinder with a working pressure of 300 bar and a positive-pressure system. It is suitable for firefighters and emergency rescue operations.

The complete set includes a steel cylinder, full-face mask, back strap, supply valve, alarm whistle, pressure regulator, and carrying bag. The low-pressure alarm activates between 5.0 and 6.0 MPa (50–60 bar).
